2. The loan application for Rs.25,000/- is recommended in the circumstances reported.

3. It is noticed that the Municipality have completed the transaction and taken over the installation without any previous reference to this office. However, in this case it is found to be quite advantageous to the Municipality who are also bearing the cost in full. The salvage value of the materials is stated to be Rs.24073/- which is roughly a half of the present prices.

Sir,

Sub:-WATER SUPPLY - Bellary Municipal Council - Booster Station and pumping set of the Military department - Purchase by the Municipal Council - Advance of Rs. 25,000/- information - subritted.

Ref:- Govt.Memorandum No.71684-2/46 H.1. P.H., dated 20-12-1946.

After taking charge of the Booster station and pumping set of the Military department, the Municipality is supplying water to the Allipuram Jail, Junior Certified School and St.Mary's Hospital. If the military water supply installation has not been purchased by the Municipality, the latter would not have been able to supply the requirements of the Jail department. The Municipality will get from them water charges amounting to Rs.12,000/- as against the charges for maintaining the additional ~~pumping~~ mains Booster Pumping station, ~~materials~~ and reservoir amounting to Rs.4,000 a year. The balance of Rs.8,000/- is more than sufficient to meet the annuity for repayment of advance applied for. As the purchase price has to be paid to the Military authorities before 31-3-1947, I request that Government may be pleased to pass early orders sanctioning the advance.

1. The Military property involved in Bellary camp water system has been already purchased by the Bellary Municipal Council for a sum of Rs.24,200/- from the Governor-General in Council (called Vendor) on condition that the Council (the purchaser) shall supply water to the extent of ~~Rs~~30,000 gallons per day to Allipuram Jail at the rate of Rs.1-8-0 per 1000 gallons.

LAuo 12286 7.6.47

2. The property referred to above has been sold and handed over to the Council on 20-9-46. The Council has effected several improvements and alterations in the said system.

3. The Allipuram Jail authorities have come to a tentative settlement with the Municipal authorities in the matter of the water to be supplied

daily and the rate for the same in a meeting held on 7-3-47 in the Collector's office in the presence of the District Collector, Sardar R.J.Potnis of the Military department, Superintendent, Allipuram Jail, Headmaster, Junior Certified School, Vice-Chairman, Commissioner and Municipal Civil Engineer.

4- Under the above circumstances the question of giving back the installations or part thereof will upset the water supply system of cantonment area. Besides public taps there are several house connections such as Allipuram Jail, Sanitorium Jail, Junior Certified School and so many other public institutions such as Government Offices, Schools, convents etc. Besides these there is a proposal to give water supply to the Soldiers' Colony to be formed by the Government within the Municipal limits. Hence I request the Government to grant an advance of Rs.25,000/- at an early date.

The Bellary Municipality has applied for a loan of ~~Rs~~ Rs 25000 from the Govt. for the purchase of the pipes, machines and pumping plant from the Military authorities to enable it to maintain the supply of water to the Alipuram Jail and to that part of the locality where the existing military buildings will be put to civil use shortly and continue the supply of water to the staying camp at Bellary at 3,000 gallons per day till such time as the camp is abolished by the military department. The Municipality has already completed the transaction and taken over the installation and it is reported that the purchase ~~price~~ price has to be paid ~~by~~ to the military authorities by 31-3-47. It is also stated that the Municipality has agreed to purchase the installations in consultation with the Collector of Bellary. The L.A.Dept. have no objection to the grant of the advance and the E. and P.H. Dept. have sent the file to this Dept. for remarks before issue of orders.

2. In G.O.Ms.No.3195 Home dated 4-9-42, the Govt. agreed to the War Dept. of the Govt. of India taking over the pipes, pumps jewel filters and other plant comprising the Alipuram Tank Pumping installation for use on a water supply scheme which provided for a separate booster station adjoining the municipal booster station subject to certain conditions which provided inter-alia that the installation should be handed back to the Govt. of Madras when no longer required by the military authorities and the War Dept. should bear the cost of restoring the installations at the Alipuram Tank if the Madras Govt. desired it to be restored. The military authorities have now stated that the pipe line and other water supply installations of this Govt. were incorporated in the general water supply installation of the military which have since been handed over to the Bellary Municipality through the Collector of Bellary and that they can be claimed from the Municipality through the Collector. It will thus be seen that either the entire installation or a portion of it belongs to this Govt. and the military authorities had no authority to dispose ~~them~~ of (the portion of the installation belonging to this Govt.) to the Municipality. The I.G. is of the opinion that the Govt. property was worth 2 or 3 ~~lakhs~~ lakhs. The question of getting back the installation from the military authorities is being considered in this Dept. separately. This Dept. may

therefore suggest that the sanction or the advance of Rs 25000 to the Bellary Municipality for the prchase of the pumping installations may be deferred. This may be returned to the E. and P.H. Dept. U.O.

In this dept's file relating to the question of the restoration of the ~~water~~ water works [illegible] pipes, pumps, jewel filters and other plant comprising the Alipuram Tank pumping installation, it was noted by this dept that ~~only~~ the only sound course to adopt would be to agree to the Bellary municipality buying the installation from the Military authorities subject to the condition that the municipality supplies the requirements of the jail dept at a flat rate of Re 1-8-0 per thousand gals. This file deals with the question of granting an advance of Rs 25,000 to the M.C. Bellary towards the cost of purchase of the W.S. installation from the military authorities.

In 1942, this Govt handed over the Alipuram tank pumping installation belonging to this Govt to the War dept of the Govt of India for use on a W.S. scheme. One of the conditions of the transaction was that the installation should be handed back to this Govt when it was no longer required by the military. The military authorities however handed over their general W.S. installation of which the Alipuram W.S. installation ~~was incorporated~~ forms a part, to the Bellary city. ~~The C. had applied for an advance of Rs 25,000 to meet the cost of purchase.~~ As the installation has

Vide para 2 of Home dept's note on p4 ante

N/C to that effect on p 10 ante

p3 ante

already been handed over to the Mty.; the Home deptt have agreed to the purchase of the installation by the M.C. The C. wants an advance of Rs 25,000 for expenditure on purchase of the installation.

The file referred to at 'M' on p 10 ante relates to a different subject, namely the comprehensive scheme of improvements to the Bellary M. W. S. Scheme. In that file, the Home deptt have agreed to the rate for supply of water to the J.C. school and the Alipuram jail being increased from Re 1-8-0 to Rs 2-4-0 per thousand gallons after the completion of the improvements in the scheme. The Commr and S.O., Bellary Mty, is being asked to report the views of the C. on the proposal for increase of the rates.

In as much as the Home deptt have agreed to the enhanced water rates it seems that the question re: sanction of an advance with which this file is concerned may be pursued. The Sany. Engineer and the C.E. have already recommended the grant of the advance. The L.A. deptt have already noted that the C. can meet the annuity on the advance.

The case may be sent to Finance for remarks through L.A. who may see the case again.
